

Project management, recovery and implementation.

ALA Consulting Group coordinates teams, vendors and decisions

WHAT ALA MANAGES

Project management

Working schedules, milestones, action owners and leadership reporting.

Project recovery

Delay review, revised sequencing, recovery plans and open decisions.

Schedule and budget control

Milestone tracking, budget variance and a current record of project risks.

Team and vendor coordination

Dependencies, vendor follow-ups and handoffs with an owner and due date.

Implementation and rollout

Training, readiness checks, cutover, go-live and operational handover.

EXPERIENCE BEHIND ALA

Selected work led by founder Adonis Doke in roles held before he founded ALA.

University telephone systems

Replaced and upgraded a university telephone system serving 300+ phone numbers, including integration with an outside dialer.

Multi-site project recovery

Established recovery plans within six weeks for delayed site projects in a prior operational role.

Implementation management

Served as the client's main point of contact on a \$5 million implementation through substantial completion.

WHERE THE WORK FITS

Education

School and university systems, campus moves, admissions processes and vendor transitions.

Business operations

Multi-site projects, delayed implementations and operational changes involving several teams.

HOW AN ENGAGEMENT WORKS

Review the project

Bring the deadline, current plan and unresolved issues.

Agree the scope

Confirm the work ALA owns, reporting and responsibilities.

Manage and hand over

Keep the plan current and leave your team with the records.
